Dear Year 7 Pupil,

When I started at The Bewdley School I only had a couple of other students I knew. As you can have imagined I was feeling very nervous. On the first day I should have not felt so worried as everyone was really friendly and the teachers helped us all feel welcome and answered any questions we had.

I would recommend joining an afterschool club, I joined netball which I have really enjoyed and have made new friends while participating.

Getting around school was a lot easier than I thought but if you do get lost there is always a teacher or older student around to ask the way so you don't need to worry. I also share a locker with a friend so I don't have to carry my coat or other items around like cooking ingredients and my PE bag. This has been very useful.

At which and break times I meet up with my friends for a catch up and we get lunch at the pod or in the cafeteria. The pod is a little building that sells food and drink, this isn't usually as busy as the cafeteria.

I found the biggest differences between primary and secondary school were having a timetable and moving around the school for different lessons.

My year has been very different this year but I have enjoyed my time in year 7 and making new friends.

Best wishes,

Evie
